

How about more for less?

With a QoL Value+ Protector policy you get an attractive death benefit guarantee and substantially more cash value for a lower premium cost.

**Lower IUL
Premiums
can Deliver:**

**Similar Guarantees
to GUL**

**More Cash
Value than GUL**

Background

GUL is good for guaranteed death benefit. However, it does have some shortfalls:

- Limited liquidity or flexibility
- Limited (if any) cash accumulation
- Designed primarily for death benefits

QoL Value+ Protector IUL offers a good guaranteed death benefit like traditional GUL products while also providing flexibility and meaningful cash accumulation. Many families know they need life insurance, but also know they need more money saved for retirement. Is one better for you?

Scenario

- Meet Jason; 50-years old; married; two kids; needs \$500k additional coverage¹
- Likes the security of a Guaranteed Universal Life (GUL) policy; but there's no real cash value for potential income and limited post-issue flexibility
- Likes potential for supplemental retirement income from Index Universal Life (IUL)
 - There may be shorter guarantees than in IUL but cash value can potentially offset the difference in guarantee

GUL and IUL Solutions

Jason's financial professional recommends two options as a solution. Solution 1 offers a guaranteed death benefit but requires a higher monthly premium. Solution 2 provides similar guarantees due to upside market potential while also potentially offering more liquidity.

Policies issued by
American General Life
Insurance Company

SOLUTION 1:

\$500K QoL Guarantee Plus GUL II

A monthly premium of \$467 provides:

- Guaranteed insurance coverage until age 105
- Partial withdrawal capability – if Jason has built up some cash value in his policy and his needs change, he could withdraw some funds from his policy. It's important to note that this would result in a proportional reduction of accumulation value and death benefit. His advisor also explains there is often less cash value in the policy for retirement needs compared to an IUL
- Return of Premium – if needs change, Jason could also receive some or all of his paid premiums back at year 20 or 25⁴

SOLUTION 2:

\$500K QoL Value+ Protector – Index UL

A monthly premium of \$377 provides:

- Tax-advantaged cash accumulation with 3 simple index strategies to choose from. Enjoy upside market potential without downside market risk.
- Guaranteed death benefit coverage until age 83
- Non-guaranteed death benefit coverage and cash value that can last until age 105 if funded correctly
- Strong Index Performance liquidity feature allows for withdrawal of excess cash value, after 20 years or at age 85, with no decrease in the death benefit or guarantees, if certain conditions are met^{1,2,3}

Compare the solutions

Issue age 50, male preferred non-tobacco, \$500k death benefit, solve for premium to guarantee GUL to age 105, full pay. Solving for premium on IUL run at 6.09% illustrated rate, the guaranteed death benefit coverage is available until age 83 while cash value and death benefit coverage can last until age 105.

Summary

Jason wanted the most out of his insurance program and with the lower premium on the QoL Value+ Protector he is getting a better value at a lower cost. His financial advisor provided him with two compelling options. Which do you think he chose?
