

Accelerated Underwriting with Fast Lane

EASIER.
SMARTER.
FASTER.

Easier - Up to \$2M of coverage through a less invasive process*

Smarter - Streamlined underwriting process that leverages application, MIB, MVR and prescription data - no tele-med interview required

Faster - Obtain underwriting decisions quicker so your cases get issued faster!

Global Atlantic's Fast Lane Accelerated Underwriting program is a dynamic, minimally invasive approach to providing an underwriting decision for up to \$2 million face amount for eligible clients. Instead of requiring a traditional medical exam, Fast Lane streamlines the process, using:

- The full application you already know, including parts I and II. (Firelight E-app available)
- MIB, prescription database results and motor vehicle report.

The checklist below will help you determine if your client may qualify for Fast Lane Accelerated Underwriting, possibly eliminating the need for fluids and APS.
