

Assured Edge® Fixed Annuities

with a flexible guaranteed lifetime withdrawal benefit

Growing your guaranteed lifetime income amount

Know today what your retirement income could be

The maximum amount that may be withdrawn each contract year under the flexible guaranteed lifetime withdrawal benefit (GLWB) is referred to as the guaranteed lifetime income amount (GLIA).

The GLWB is automatically included in the contract for an annual fee of 0.95%.

Here's an example of how the initial GLIA is calculated:

$$\begin{matrix} \$100,000 \\ \text{Eligible premiums} \end{matrix} \times \begin{matrix} 7.10\% \\ \text{Single coverage} \\ \text{Age 65} \end{matrix} = \begin{matrix} \$7,100 \\ \text{Initial GLIA} \end{matrix}$$

For each year that you wait to activate lifetime income, your GLIA grows by an income credit.

Here's an example of how the annual income credit is calculated:

$$\begin{matrix} \$7,100 \\ \text{Initial GLIA} \end{matrix} \times \begin{matrix} 8.5\% \\ \text{Income growth rate} \end{matrix} = \begin{matrix} \$604 \\ \text{Income credit} \end{matrix}$$

Here's an example of how the GLIA is calculated when income is activated at the end of year five (assumes no withdrawals):

$$\begin{matrix} \$7,100 \\ \text{Initial GLIA} \end{matrix} + \begin{matrix} \$604 \times 5 \\ \text{Income credit} \times \\ \text{deferral years} \end{matrix} = \begin{matrix} \$10,118 \\ \text{Per year} \end{matrix}$$

Withdrawals other than the GLIA or a change in covered person(s) may affect the GLIA. See the product overview or brochure for details.

* Income percentages and the income growth rate are periodically set by the company and may be different as of the date a contract is actually issued. Rates will be displayed within the contract and are guaranteed not to change.

Annuities are long-term products designed for retirement.

Withdrawals may be subject to federal and/or state income taxes. A 10% federal early withdrawal tax penalty may apply if taken before age 59½ in addition to ordinary income tax. Partial withdrawals may reduce benefits and contract value.

This material is general in nature, was developed for educational use only, and is not intended to provide financial, legal, fiduciary, accounting or tax advice, nor is it intended to make any recommendations. Applicable laws and regulations are complex and subject to change. Please consult with your financial professional regarding your situation. A fixed annuity is a contract between you and an insurance company that, in exchange for your premium (earning a fixed rate of interest), offers a stream of guaranteed income payments.

AT END OF CONTRACT YEAR

Not FDIC or NCUA/NCUSIF Insured

May Lose Value • No Bank or Credit Union Guarantee
Not a Deposit • Not Insured by any Federal Government Agency

Assured Edge® Fixed Annuities

with a flexible guaranteed lifetime withdrawal benefit

Know today what your retirement income could be

The maximum amount that may be withdrawn each contract year under the flexible guaranteed lifetime withdrawal benefit (GLWB) is referred to as the guaranteed lifetime income amount (GLIA).

The GLWB is automatically included in the contract for an annual fee of 0.95%.

Here's an example of how the initial GLIA is calculated:

$$\begin{matrix} \$100,000 \\ \text{Eligible premiums} \end{matrix} \times \begin{matrix} 6.6\% \\ \text{Joint coverage} \\ \text{Age 65} \end{matrix} = \begin{matrix} \$6,600 \\ \text{Initial GLIA} \end{matrix}$$

For each year that you wait to activate lifetime income, your GLIA grows by an income credit.

Here's an example of how the annual income credit is calculated:

$$\begin{matrix} \$6,600 \\ \text{Initial GLIA} \end{matrix} \times \begin{matrix} 8.5\% \\ \text{Income growth rate} \end{matrix} = \begin{matrix} \$561 \\ \text{Income credit} \end{matrix}$$

Here's an example of how the GLIA is calculated when income is activated at the end of year five (assumes no withdrawals):

$$\begin{matrix} \$6,600 \\ \text{Initial GLIA} \end{matrix} + \begin{matrix} \$561 \times 5 \\ \text{Income credit} \times \\ \text{deferral years} \end{matrix} = \begin{matrix} \$9,405 \\ \text{Per year} \end{matrix}$$

Withdrawals other than the GLIA or a change in covered person(s) may affect the GLIA. See the product overview or brochure for details.

* Income percentages and the income growth rate are periodically set by the company and may be different as of the date a contract is actually issued. Rates will be displayed within the contract and are guaranteed not to change.

Annuities are long-term products designed for retirement.

Withdrawals may be subject to federal and/or state income taxes. A 10% federal early withdrawal tax penalty may apply if taken before age 59½ in addition to ordinary income tax. Partial withdrawals may reduce benefits and contract value.
